

We choose LMCC because it was very clean, spacious and new. LMCC has medical graded IQ Air filters all around the facilities which to me is very important because my toddler has bad allergies.

My child enjoys TV time the most during pick up windows, because we don't give him TV at home haha, but jokes aside we believe he loves everything LMCC has to offer. From the new friends, to the teachers, the activities, and most importantly to him, the unlimited food and snacks.

I witnessed my child's growth through the songs he would sing at random times throughout the days like ABC's, Days of the Week, and mu favorite: a Father's Day song.

I would tell other families that LMCC is very attentive with my Child's care. He knows all the teachers and classmates and I rest easy knowing he is well taken care of whilst at school.
